EDUCATION

B.Sc. COMPUTER SCIENCE | The University of British Columbia | 92.3% GPA 2024 - present

- Dean's Scholar Award; Loran Provincial Award
- Relevant courses: CPSC 110, CPSC 121, CPSC 210, CPSC 221, CPSC 213, DSCI 100

TECHNICAL EXPERIENCE

UNDERGRADUATE TEACHING ASSISTANT | UBC Department of Computer Science Sep 2026 - present

- Undergraduate TA for CPSC 213: Introduction to Computer Systems

SOFTWARE DEVELOPER CO-OP | UBC Faculty of Medicine Digital Solutions Jan 2026 - Aug 2026

- Develop and maintain Java-based web applications (with HTML, CSS, JavaScript, React in front-end)
- Collaborate within an Agile development team, using Jira for sprint planning and issue tracking
- Automate builds and deployment pipelines using Atlassian Bamboo to support CI/CD processes
- Build and optimize relational databases using SQL Server

PROJECTS

RABBIT HOLE (*cmd-f hackathon — Best Use of Gemini API Award*) Mar 2026

- Created a Next.js web app to help users navigate difficult conversations via science-backed frameworks
- Used Gemini API to critically analyze the user's issue and provide subtle guidance toward a solution
- Utilized ElevenLabs API for speech-to-text and text-to-speech capabilities

AWARDSCOPE (*Hack the Coast hackathon*) Feb 2026

- Built a full-stack Next.js web app that helps students find financial aid they qualify for, deployed on Vercel
- Connected the app to a MongoDB database to find financial aid matches
- Utilized the Gemini API to deliver customized application plans to users

MUSIC PLAYER Jan - Apr 2025

- Developed a playlist manager and music player for local files in object-oriented Java, with data persistence via a JSON save/load feature
- Built a graphic user interface using the Java Swing library to display the user's playlist of song titles and artists
- Developed 6 user stories and achieved 100% JUnit test coverage

WELLSPRING (*HackCamp hackathon — Finalist & Most Accessible Design Awards*) Nov 2024

- Led a team of four in creating a web app that allows users to track health stats such as fitness and water intake
- Prototyped the web app using Figma
- Created a detailed presentation video for adjudication

VOLUNTEER & EXTRACURRICULAR

VP INTERNAL UBC Women in Computer Science | Vancouver, BC | May 2026 - present

- Manage a team of three Internal Events Directors, organizing events to bring together 1500+ UBC CS students
- Collaborate frequently with the CS Department in running events within the Tri-Mentorship Program
- Lead weekly team huddles, mentor new execs, and streamline event operations

COMMUNITY EVENTS DIRECTOR

UBC Women in Computer Science | Vancouver, BC | May 2025 - Apr 2026

- Planned and executed 1-2 events per month to engage the community of women in computer science at UBC
- Initiated partnerships with other UBC clubs, extending our impact to organizations with similar interests
- Worked closely with the marketing team to plan event themes and promotional content

FIRST YEAR REPRESENTATIVE

UBC Women in Computer Science | Vancouver, BC | Sep 2024 - Apr 2025

- Collaborated with various teams including events, podcast, web development, and marketing
- Increased club outreach to high school and first-year students
- Planned and taught an introductory Python seminar to over 30 high school and university students

COMPUTER SCIENCE PEER TUTOR

Eric Hamber Secondary School | Vancouver, BC | Jan 2024 - Jun 2024

- Assisted 25+ high school CS students in topics such as Python, binary arithmetic, and digital circuits
- Answered students' questions in class during lessons and work periods and invigilated in-class exams
- Explained concepts patiently, using various approaches until the student reached comprehension

CO-PRESIDENT

STEM Sorority | Vancouver, BC | Sep 2023 - Jun 2024

- Organized workshops, labs, and other events to encourage girls and gender minorities to pursue STEM careers
- Applied to grants and corresponded with club sponsors via email
- Maintained a steady line of communication with other club branches

MANAGING EDITOR

The Griffins' Nest | Vancouver, BC | Sep 2023 - Jun 2024

- Oversaw the bimonthly publication of a student newspaper issue, mentoring a team of 100+ student writers
- Kept the website up to date whenever a new article was released
- Conducted district-wide research to investigate local issues
- Secured hundreds of dollars in funding through advertisements from local businesses

NONTECHNICAL EXPERIENCE

SKI INSTRUCTOR

Whistler Blackcomb | Whistler, BC | Dec 2022 - present

- Teach students beginner to intermediate skiing in both group and private settings
- Fulfill duty of care by supervising students at all times and ensuring their needs (hunger, cold, etc.) are met
- Provide constructive feedback to students and their parents based on the student's skiing
- Debrief with supervisors daily regarding any concerns that arise throughout each day

PRIVATE MATH TUTOR

Vancouver, BC | May 2025 - present

- Explain key concepts in high school and introductory university course material
- Meet with students in-person and online to work through both assigned material and extra problems I provide
- Set personalized goals with each student and track their progress over time

TECH SPECIALIST

London Drugs | Vancouver, BC | Nov 2022 - Dec 2025

- Advise clients on products throughout the Tech department and manage photo orders at the Photo Lab
- Stay up to date on new technology/products and attend product knowledge seminars
- Perform inventory counts, merchandise, and maintain the professional sales image of the department
